

Hydraulic Driven Air Conditioner Zone-2 rated

Hydraulic driven air conditioner is designed for the rigorous requirement of the mining, marine and oil field industry. It is suitable for heavy equipment such as Wireline line units, Wireline Logging Trucks, shovels, dozers, haul trucks, loaders, excavators, drills and underground equipment applications.

It requires little maintenance because of its corrosion and vibration-resistant construction and can be installed at roof top, vertical. It can be built in a single piece or in 2 piece unit.

FEATURES

- 100 % Hydraulic Air Conditioning
- 18,000 BTU/hr to 50,000 BTU's/hr
- No electrical power required
- Works well in ambient temperatures exceeding 55°C / 130°F
- Designed for hazardous environments
- Off-the road or offshore application

OPTIONS

- Single Piece or Split System
- Stainless Steel external enclosure
- Can be built for non hazardous environment
